

Aluminum Wood Inswing Sectional Plan View

LaCantina Doors Aluminum Wood inswing frame depth is 5 5/8" [143mm] as standard, suitable for common 2 x 4 framing with stucco and drywall. The Aluminum Wood frame depth can be extended with jamb extensions on the interior for thicker wall conditions or desired trim detail on the interior. The location of the frame in the wall condition will also depend on the trim detail desired. We offer optional 2" wood jamb extensions supplied separately.
